# BELTAINE

**BELTAINE** - one of the most interesting world music group from Poland.

Its distinctive sound is the result of completely different members' personalities and musical experiences meeting together. They are mainly inspired by broadly defined traditional music (world/celtic), but it just makes them follow their own path. They experiment and blur the boundaries between traditional folk music and contemporary one. **BELTAINE** has personalized its music giving it a fresh, original, catchy texture

Beltaine was brought to life in 2002 in Katowice and it shaped up into a group of six musicians. Its discography consists of four studio albums and the live one. The live album was the result of the tour featuring the German harpist Jochen Vogel. Each of the studio albums have achieved the title of **THE BEST FOLK ALBUM OF THE YEAR** in the Wirtualne Gesle voting, coorganized by **POLISH RADIO S.A.**

Since the very beginning Beltaine's concerts offered an exciting, vibrant, uplifting sound that has the audience enthralled all over the world. They've been touring **MEXICO, MALAYSIA, THE USA, CANADA** they regularly perform at the most important festivals in **EUROPE.**
