

# WOODEN LEGS

## Biography

The Wooden Legs is an Irish music band formed by five musicians based in Trieste, Italy, with more than 10 years of experience on European stages. Their repertoire ranges from traditional ballads, special fusions of classic jigs or reel, to original compositions that blend folk atmospheres with unexpected sound.

The band, from 2017 with a new line-up, is now characterized by powerful rhythms and a more aggressive sound, reaffirming the goal of making “*Extreme Irish Music*”. However, the band is still faithful to its research on traditional Irish instrumental tunes and ballads.

They recently released the third studio album “*Animali*“, which represents the synthesis of their musical journey of the last few years.
